National Seminar

April 29, 2017 (Saturday)

Digital India - Impact on E-Governance

Organized by
Department of Computer Science
Mewar Institute of Management

About the Institute

Mewar Institute is a reputed and leading professional college committed to impart quality education. It was established in 1996 under the aegis of Mewar Education Society, Delhi, a non-profit making body registered under the Societies Registration Act, 1860 comprising a group of enlightened academicians, businessmen and industrialists of repute. Marching towards excellence and perfection, Mewar has acquired remarkable growth which is reflected in the strength of its students touching the mark well over 2500. It has also been ranked as the No. 1 Law Institute in the entire NCR and Ghaziabad region.

Today, Mewar Institute has blossomed into a full-fledged academic institute and comprises two campuses Mewar Institute of Management (affiliated to C.C.S. University, Meerut, recognized by UGC u/s 2(f) and approved by N.C.T.E, Jaipur) offering B.Ed., B.Lib., B.B.A, B.C.A, M.B.E, M.Sc. (Biotech), M.Sc. (Information Science), M.Sc. (Computer Science), B.T.C (affiliated to S.C.E.R.T, Lucknow) and Mewar Law Institute (affiliated to C.C.S. University, Meerut, recognized by UGC u/s 2(f) and approved by Bar Council of India) offering B.A. LL.B. 5 year and LL.B. 3 year. These two institutes are located on a sprawling 3 acres campus at a distance of 4 kilometers from Delhi at Sector-4C, Delhi- Ghaziabad Link Road, Ghaziabad (U.P.).

About the Department of Computer Science

Mewar Institute is well renowned institute in Delhi NCR. This institute is running various courses by different departments since the institute started the journey in contribution to serve the society. Department of Computer Science is playing an important role and dedicated to achieve the mission and vision of institute. For this, Department of Computer Science is providing education to the students on the basis of current demand of the

software industries.

We are providing not only theoretical knowledge but also giving a practical exposure to our students, so that the students can have their hands on experience. In past years every student of BCA and M.Sc. (Computer Science) has completed their summer training and project training in the industry. Through the summer training and project training our students get the practical exposure in various fields of computer science. Our students completed their projects on different technologies like .NET, PHP, Java/J2EE, Android, Software Testing and Networking. They feel happy and confident with this practical exposure which help them for getting better placement.

Apart from this, we are also encouraging students to participate in extra curricular activities for their overall development. Through all these things we are making our students different from other institutions.

About the Seminar

Digital India programme is a flagship programme of GoI with a vision to transform India into a digitally empowered society and knowledgeable economy.

Digital India concept was launched on 1st July, 2015 by Hon'ble Prime Minister Shri Narendra Modi. The initiative includes plans to connect rural areas with high-speed internet networks. Digital India is a campaign launched by GoI to ensure that Government services are made available to citizens electronically by improved online infrastructure and by increasing internet connectivity or by making the country digitally empowered in the field of technology.

The aim of organizing this seminar on Digital India is to transform the objective of this concept to future of the country who will serve the nation in the field of

information technology. Through this seminar we are trying to impart the main key points of Digital India concept to the students by keeping in mind the mission and vision of Mewar Institute.

In today's scenario, we are living in digital world, we see computer and internet everywhere, we spend lots of time on internet with smart phones, laptops, tablets etc. So in this stage this is mandatory to know the proper use of internet and safety of data in digital world.

The objective of organizing this seminar on "Digital India - Impact on E-Governance" is to create awareness among students about Digital India concept so that they can help the society and can serve the nation better.

Theme of the Seminar Digital India - Impact on E-Governance
